

LAX

AVAILABLE SEPT 2024

Product Highlights

- Allows game officials to run the shot clock from the field with <1/100th of a second accuracy!
- Reset and start the shot clock with a single push.
- Receive a powerful vibration alert 20 seconds into the shot clock countdown to alert officials of a backcourt violation. Receive a second vibration alert when the clock hits zero.
- A side button on the pack resets and immediately starts the 60-second clock after a team regains possession after a shot attempt.
- Save money and valuable labor resources by not hiring a clock operator!

Proven Technology

WhistleStop technology has been used across sports and across the country:
